

The Plan - content and intended outcomes

Art children will:

Explore classical Greek art themes and styles, including pattern repetition, light and dark contrast, silhouette images and produce their own interpretations in different media, to develop and introduce new techniques.

Science children will:

Explore **electricity**, including creating circuits with buzzers and lamps to explain variations in function such as lamp brightness, buzzer loudness, on/off function, and create simple circuit diagrams.

Explore **forces**, including air and water resistance and friction. Explore how mechanisms such as levers allow a smaller force to have a greater effect.

Religious Education

Maths children will

Y5/6 develop fraction, decimal, percentage understanding and use this to solve basic calculations and problems.

Y 5/6 learn formal methods for long division to divide larger integers by 2 digits

Y5 geometry to understand and calculate angles

Y6 begin basic algebra to solve simple equations

Design and Tech children will:

Design and build a sculpted 3D Cyclops model using text illustrations and classical Greek art as sources, using tools to roll, pinch, overlay and sculpt.

Explore the role of pillars in architectural support and how these were used by the Greeks, looking at their differences and uses and developing a model to test.

Physical Education

Children will

Develop competitive invasion games skills including tag rugby, netball, football, applying basic principles for attack and defence.

Music

Develop canon singing with songs from other cultures including Kenyan rounds.

Geography children will

Explore the similarities and differences in human and physical geography between Greece/ Athens and Britain / Telford.

Be able to locate Greece and other European countries using maps, and identify key regions, characteristics and cities.

English children will

Develop grammatical knowledge including Y5 /6 spelling patterns, modal verbs, conjunctions, simple and complex sentences, subjunctive, formal vs informal, use of brackets / dashes / commas and add extra information.

Explore Greek myths and Greek storytelling including the Homeric tales. Develop formal writing skills in job advertisements / applications and instructions. Develop creative writing skills in recounts and narratives.

Computing

French Children will

Develop use of simple phrases to talk about themselves, their families and lives

History children will

Explore Ancient Greek life and understand their achievements on influence on the Western world.

Intended learning outcomes.
